Education & Professional Experiences

- ***Ph.D. in Biostatistics, Sep 2019 - present***
  Department of Biostatistics, Epidemiology and Informatics
  Perelman School of Medicine at the University of Pennsylvania
  Advisor: Dr. Yong Chen
- ***Research Assistant, Oct 2017 - May 2019***
  Department of Biostatistics, Epidemiology and Informatics
  Perelman School of Medicine at the University of Pennsylvania
  Advisor: Dr. Yong Chen
- ***B.S. with High Honors in Applied Mathematics, Sep 2014 - June 2017***
  Cum Laude
  University of California, San Diego
  Thesis title: Strongly Correlated Band Random Matrices
  Thesis paper: Random Matrices with Blocks of Intermediate Scale: Strongly Correlated Band Random Matrices
  Advisor: Dr. Todd Kemp

Awards & Honors

- ***Department Honors in Mathematics (Applied) with High Distinction (2017)***
  https://math.ucsd.edu/_files/undergraduate/honors-program/honors-program-presentations/2016-2017/Jiayi_Tong_Honors_Thesis.pdf
  University of California, San Diego
- ***Honor society: Phi Beta Kappa (2017)***
  University of California, San Diego
- ***Provost's Honors (2015, 2016, 2017)***
  University of California, San Diego

8. **Tong, J.**, Li, R., Zhou, D., Duan, R., Moore, J., and Chen, Y. (2019) Improving the reproducibility of EHR-based association studies for pleiotropic effects by accounting for phenotyping errors, **Eastern North American Region (ENAR)**, Philadelphia Oct 2019.

9. **Tong, J.**, Huang, J., Du, J., Cai, Y., Tao, C. and Chen, Y. (2018) The Use of Likelihood Ratio Test to Identify Rare Adverse Events with Year-varying Reporting Rates for FLU4 Vaccine in VAERS, **AMIA 2018 Annual Symposium**, San Francisco Nov 2018.

Poster Presentations

10. **Tong, J.**, Duan, R., Liu, Y., Hong, C., Chi, K., and Chen, Y. (2018) A Comprehensive Toolbox for Advanced Meta-analysis, **2018 DBEI & CCEB Research Day**, University of Pennsylvania, Philadelphia April 2018.

Research/Job Experiences

1. ***Research Assistant***
   The Perelman School of Medicine, University of Pennsylvania — *Oct 2017 - June 2019*
   Advisor: Dr. Yong Chen — *Philadelphia, PA*

   - Statistical methodology development: worked with collaborators and developed an augmented method to handle misclassified phenotype in EHR data to improve reproducibility in EHR-based findings; applied the augmented method to multiple datasets.
   - Applied projects: applied a pairwise likelihood model to Keep it Off study, a three-arm randomized controlled trial study to analyze weight loss data that could be potentially missing not at random; applied semiparametric proportional likelihood ratio model to analyze the length of hospitalization with data from Penn ICU.
   - Collaborative projects: collaborated concurrently on multiple projects, including post-marketing pharmacovigilance study (e.g., vaccine safety) with medical informaticians from UTHealth and meta-analysis with physicians from Penn Medicine.

- Web and module development: built and added interactive online meta-analysis module to *XMETA* (`https://www.xmeta.org/`), which is aimed to assist the doctors without prior programming experience to conduct meta-analyses.

2. ***Independent Undergraduate Research*** *Jun 2017 - present*
   Department of Mathematics, UC San Diego *La Jolla, CA*

   - Research on "Forecasting Stock Prices by Fuzzy Support Vector Machines".
   - Used time-series model analysis in R to study the trending of stock prices; selected technical indicators with machine learning methods for stock prices prediction.

3. ***Research Assistant***
   Department of Mathematics, UC San Diego *Sep 2016 - Jun 2017*
   Advisor: Dr. Todd Kmep *La Jolla, CA*

   - Designed "Maximally Correlated Band Random Matrices"; performed simulations using different distributed entries and investigated the pattern of the eigenvalues.
   - Proposed and proved eigenvalue pattern with Wick's Theorem and the method of matrix moment.
   - Wrote thesis paper "Random Matrices with Blocks of Intermediate Scale Strongly Correlated Band Matrices", which was awarded High Distinction Honors.

4. ***Summer Research Assistant***
   Department of Mathematics, UC San Diego *Jun 2016 - Sep 2016*
   Advisor: Dr. Todd Kemp *La Jolla, CA*

   - Worked on random matrices with blocks whose entries are highly correlated; performed simulations and investigated the pattern of random matrices' eigenvalues.
   - Tested and computed scalings of entries; performed normalization of random matrices; gave proof of the scalings which contribute to the convergence; led the weekly discussion and developed random matrices with new structure and distribution of correlated entries.

5. ***Research Assistant***
   Department of Political Science, UC San Diego *Sep 2015 - Apr 2016*
   Advisor: Dr. Erik Gartzke *La Jolla, CA*

   - Prepared and cleaned data of U.S. territories and possessions and foreign oversea area of the 1960s to the 1980s for research about Democratic Peace.

Professional Activities & Services

1. ***Reviewer of American Medical Informatics Association (AMIA) Annual Symposium, 2019, 2020***

2. ***4th Annual Summer Institute in Statistics for Big Data (SISBID)***

Computing Skills

- R, Matlab, Python, Java, SQL
